

# Holocaust Speaker

Living on the Polish/Ukrainian border at the outbreak of the war, a Jewish family with seven children should not have survived. But the Parnes family did, thanks to a combination of luck, happenstance and most importantly, the family's own determination to stay together no matter what. The family escaped their town before German soldiers arrived, continuing to stay just a step ahead of the Nazis. This special story has been immortalized in a book—"One Step Ahead" and in a theater production, "By Wheel and by Wing". This is a story of survival against the odds.
